Local Manufacturing Companies Invite Educators To their Factories

A large, a medium, and a small manufacturing plant organized a tour of their facilities for local educators to address the need for workforce education in schools. Task Force Tips, Custom Crimp, and King Headz opened their facilities and discussed their hiring needs with a tour of 15 regional educators. Highlights of the experience were to see many Career and Technical Education students experiencing success at these employers.

Our Horticulture and Landscape Design class taught by Mrs. Sutherlin, have partnered with Thomas Jefferson Elementary and Memorial Elementary, and both school's PTO to do gardens. At TJE, the students are designing and installing a butterfly garden that the elementary teachers will be able to use in science classes. At Memorial, students are redesigning a memorial garden.

Health Careers students took a trip to Opportunity Enterprises to find out the things they do and the careers available at OE.
